

# Memorandum of Understanding

---

The Partnership for Sustainable Orange Juice (PANAJO) is a multi-stakeholder partnership of businesses, civil society, trade unions and the public sector intended to improve the living and working conditions of workers and producers in the orange juice supply chain in Brazil and, in the long term, increase the share of sustainable orange juice on the German market. An important aspect of implementing decent working and living conditions is ensuring that workers and producers are able to achieve a living wage or income for themselves and their families through their work.

The undersigned organisation undertakes to actively and in an implementation-oriented manner pursue the objectives set out in the document “Principles of Cooperation” and in the roadmap of the Partnership for Sustainable Orange Juice.

## To which group of actors do you assign yourself (cf. PANA O's Principles of Cooperation)?

private sector

civil society

trade unions

politics

## Motivation and plans for implementation (no more than 200 words)

I hereby confirm that I have informed and gained permission from all contacts named above to forward their data to PANA O.

The named contacts agree that the secretariat may record, use and store the provided data in order to contact them for the purposes of member support (to enable them to join the MS Teams platform, to send them information e-mails, newsletters and invitations).

The applying organisation agrees that its membership may be communicated in PANA O publications and on the PANA O website.

I hereby confirm that all information provided to the secretariat is complete and correct.
